PROGRAMME

Tissue engineered skin as a challenging step toward successful 3D Printing?
Laure GIBOT (IPBS-CNRS UMR5089 - Toulouse)

Bioprinting of skin models
Fabien GUILLEMOT (Poietis - Pessac)

3D sensitive skin
Colin MC GUCKIN (CTI Biotech - Meyzieu)

Recent developments of Electrospun Nanofibers as 3D Scaffolds for Skin Tissue Engineering
Frédéric BOSSARD (Université Joseph Fourier – Grenoble)

Nanofibrillar scaffolds for tissue engineering and skin repair
Alain COLIGE (Laboratoire de Biologie des Tissus Conjonctifs - Université de Liège, Belgique)

Biomaterials & hydrogels
Latifa DAHRI CORREIA (Ayawane – Lyon)

Plateforme 3D FAB : l'apport de la bio-impression 3D/4D
Christophe MARQUETTE (CNRS / Université de Lyon)

Human Skin Bioprinting using Scaffold free Approach
Amélie THEPOT (LabSkin Creations - Lyon)
